Day	Powerful Idea	Evidence	Sketch of set up(s)	Relevant Vocabulary
9-27-11	Light leaves the light source in all different directions	The irregular shaped light bulb demonstration		Filament- the part of the light bulb that lights up
	Light leaves the light source in all different directions in a straight line	The yard stick demonstration <i>describe</i>		<i>show light source, shadow</i>
10-4-11	Light bounces off an object in all different directions <i>abc my nose</i>	The light went from the wax paper to all parts of the eye		
	Light has to get to the eye from the object in order for the object to be seen	This is confirmed because everyday we see objects
