

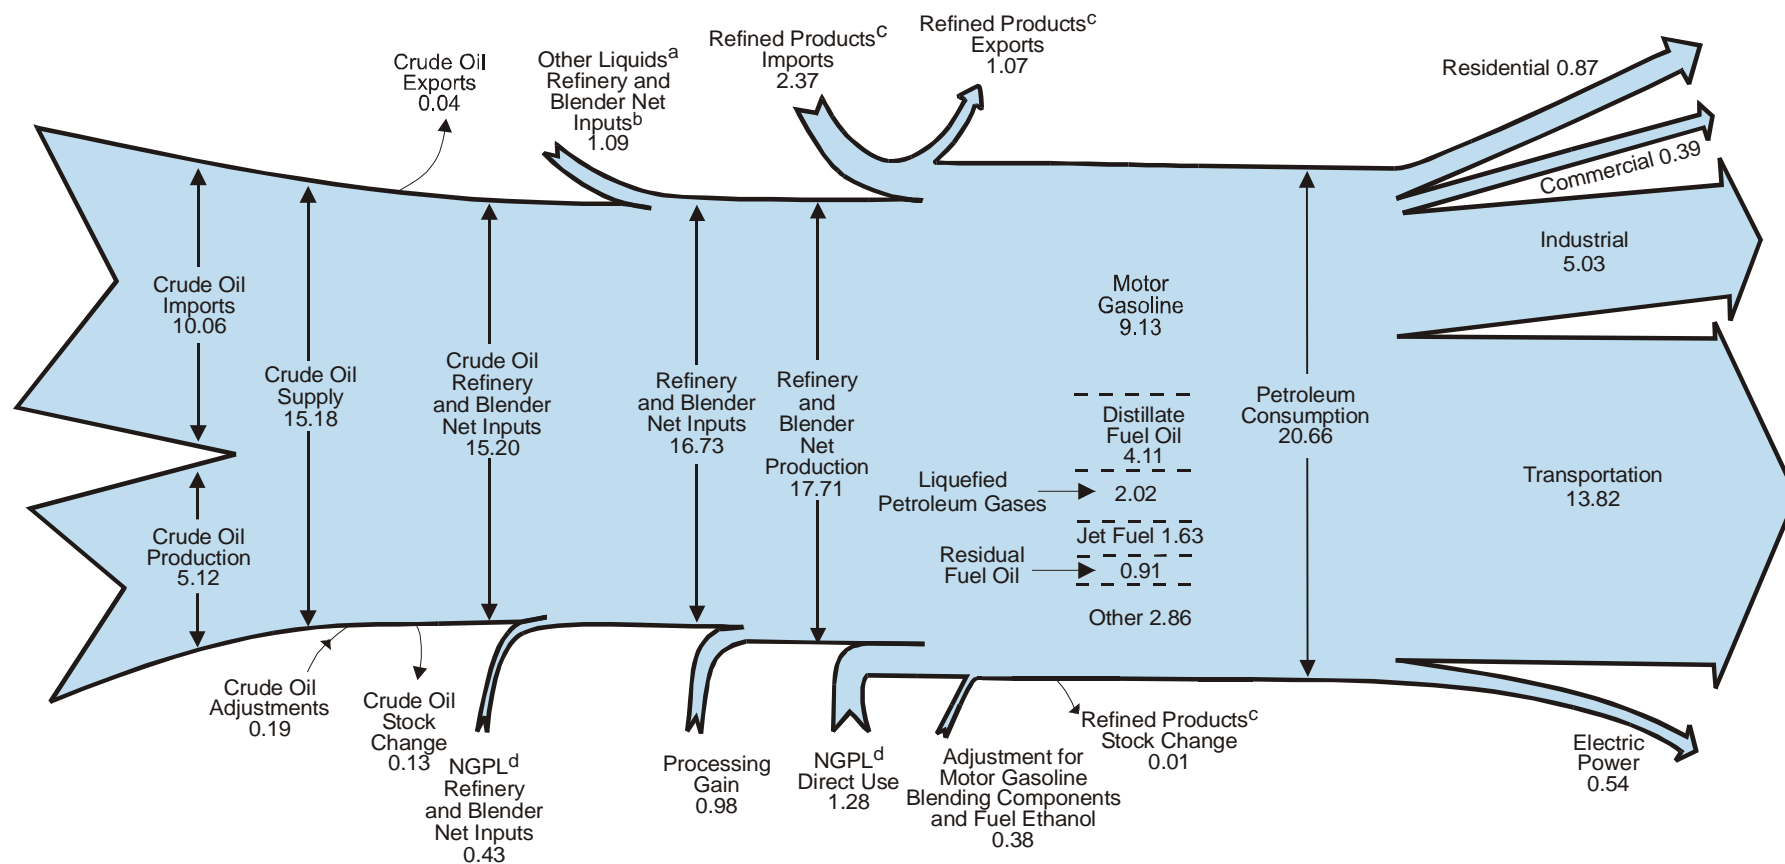

**Diagram 2. Petroleum Flow, 2005**  
(Million Barrels per Day)

<sup>a</sup> Unfinished oils, other hydrocarbons/hydrogen, and motor gasoline and aviation gasoline blending components.

<sup>b</sup> Net Imports (1.04), adjustments (+0.06), and stock change (less than 0.01).

<sup>c</sup> Finished petroleum products, liquefied petroleum gases, and pentanes plus.

<sup>d</sup> Natural gas plant liquids production minus refinery input.

Notes: • Data are preliminary. • Values are derived from source data prior to rounding for publication. • Totals may not equal sum of components due to independent rounding.
